The German Pool Silicone Kitchen Utensil Set includes a heatproof pot holder and a non-stick spatula. The pot holder is not only heatproof, but made with a special pattern for extra grip, making it a fantastic anti-slip heat sleeve for hot pan handles or the go-to solution for opening bottle lids. The flexible silicone spatula leaves precious cookware non-stick coatings intact when scraping food from surfaces. The flexible blade is ideal for removing cake batter, meringues, or excess ingredients from mixing bowl. Silicone is durable, high heat resistant and easy to clean, making it perfect for the kitchen.

### 矽膠非塑料 實用、環保、健康

#### Non-plastic Silicone – Practical, Economical, and Healthy

#### 矽膠非塑料 健康安心

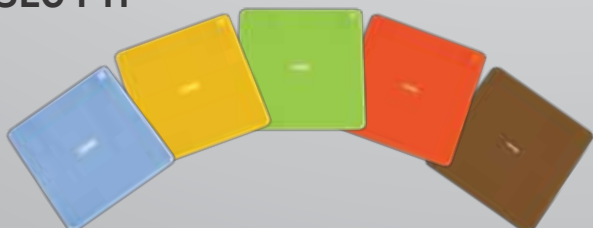

二氧化矽是矽膠的主要成份，由於其化學性質安全，安全性高，與傳統塑料相比更清潔，不含雙酚A (BPA)，更適用於食品與製藥工業，保障健康飲食生活。

#### Non-plastic Silicone – Safe and Healthy

Composed mostly of silica, these silicone products are safe and reliable. Compared to traditional materials, silicone is safer and easier to clean, and is free of the harmful bisphenol A (BPA) found in plastic food and drinking containers.
