German Pool

DSX Instantaneous Electric Water Heater is fully electronically controlled with Twin Temperature Control (TTC®) that ensures precise hot water supply between 20°C and 60°C for energy efficiency. It can be applied to single or multiple points. Multiple Power System (MPS®) allows users to select the desired power rating upon installation (18-27 kW). It is compatible with solar heating systems, and comes with colour LCD display and optional remote control.

Portfolio Group Ltd

The new freestanding shower system FS3 with thermostat embodies the Vola character in its purest form; concise, slender, sculptured design. It is distinguished by its modern and geometrical shape. The new FS3 mimics natural rainfall but unlike nature, intensity and temperature of the curtains of water can be easily adjusted.
