Heather & March And Institut Paul Bocuse Successfully Brings The Learning Of Haute French Cuisine To Hong Kong

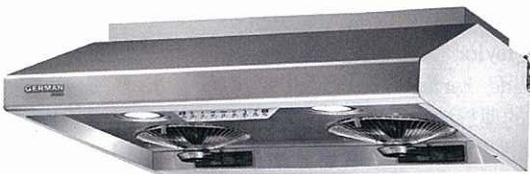

Heather & March, a high end lifestyle retailer specializing in imported French home ware brands has joined hands with the renowned Institut Paul Bocuse to hold a world-renowned culinary program run by the top team of the legendary Chef Paul Bocuse. The intimate event was successfully held on July 23rd at the new Miele Private Lounge in Causeway Bay.

RIMADESIO – Abacus, the walk-in wardrobe

The Abacus system takes RIMADESIO's glass aesthetic towards new possibilities of interpretation: the walk-in wardrobe becomes a room of lacquered glass where in extremely thin and rigorously geometric horizontal elements are placed. A design that is capable of uniting functionality and mood from a lighting point of view, thanks to the built-in lighting system on the upper part of the wall panels, this system combines with the LED lights on the shelves.

German Pool WRX Eco Series Range Hood – Green & Intelligent

The all-new WRX Eco Series Wall-Mount Range Hood offers great convenience with its ultra-intelligent design. Forget to turn on the hood? WRX comes with a heat-activated auto-start function to keep your kitchen clean. What's more, cleaning is no longer a chore as grease is removed with a simple press of the auto heat cleaning button.

As a patented design, the motor automatically accelerates to fight against external pressure under turbo mode. On the other hand, the engine runs at an energy-efficient speed with minimal sound level when silent mode is selected. Together with the green LED lighting and 0.25W auto night light function, WRX is your best kitchen companion.
