Bowers & Wilkins launches Zeppelin Air

Bowers & Wilkins Zeppelin Air is the ultimate AirPlay® wireless audio system with completely updated drive units and advanced Digital Signal Processing plus fully integrated AirPlay technology so users can easily stream music wirelessly from iTunes, iPhone, iPad or iPod touch.

Three years ago the original multi-award Bowers & Wilkins Zeppelin™ redefined what could be expected from an iPod speaker system. Now Zeppelin Air provides another seismic shift in audio performance, design and functionality with completely updated drive units, updated amplification and the latest in Digital Signal Processing to deliver improved sound quality. And while Zeppelin's iconic shape has been retained, subtly updated styling help modernize this design classic.

Le Piano An "Open Space" Cooking Zone

This new cutting-edge technology hob allows up to 5 different cooking pots at the same time, whatever their size or shape. Place the cooking pots and pans anywhere on the hob and Le Piano takes over. Greater freedom goes hand in hand with absolute reliability as this hob has a great number of inductors which guarantees precision and best power.

German Pool 4-in-1 Steam & Grill Microwave Oven Easy Cooking, Healthy Dining

German Pool's brand-new 4-in-1 Steam & Grill Microwave Oven makes cooking easy and efficient. This versatile oven can perform steaming, grilling, microwave and convection cooking. What's more, it features 46 auto cooking programmes preset with various specialty recipes, so that you can create a sumptuous meal with a simple press of the button.

If you want to better retain food moisture and keep it juicy, press the uniquely designed "steam" button during cooking. This is a great way to preserve food nutrients. With the auto steam cleaning function, you don't need to worry about cleaning. Such a convenient oven will surely help you lead a healthy lifestyle.
