With the innovative ideas in the bathroom, now taking a bath is no longer just about cleansing, but also relaxing for an enjoyable part of the day. Unwind in a relaxing bath with German Pool's Instantaneous Water Heaters and you will never want to leave the shower.

After a long day, all you want to do is jump right into a bath and rinse off all your stress. Get straight into a shower with the instantaneous heater and hot water is here in a blink. The state-of-the-art heating system provides immediate and constant hot water whenever you want, at the exact temperature you desire, so you can now take a shower anytime, in no time.

The precise electronic control allows you to decide the right temperature for just yourself as power is thermostatically controlled in accordance with the ambient temperature and water flow rate. Equipped

with SERVOTRONIC® dynamic flow control and advanced IEC® wire heating system, the appliance allows you to personalize your shower by accessing your favorite settings with the smart programmable function keys. Now without a thought, you are in the shower of your own, clearing all your tiredness.

It's not just about the experience of the bath that is impressing, but the heating system also surprises everyone with how it saves energy and money, especially when it excels in so many aspects. The economical and eco-friendly appliance heats only as much water as you actually need, so that energy will not be wasted to heat up unused water, saving the environment, as well as the money in your electric bill.

This slim and space saving appliance made in Germany is a friend of the planet Earth. Not only does it save energy by heating a precise amount of water, it is also compatible

with solar heating systems to utilize renewable energy. The low flow rate halves the power consumption automatically while its ECO-MAX part-power switch saves up to 33% of power, keeping your electric bill and the damage to the Earth as low as possible.

User-friendly and easy to install, it contains various connection possibilities, with adjustable power ratings. The slim and sleek build is a prime example of quality German engineering, fitting in well with the aesthetic of any modern bathroom.

Simply pick the temperature of your choice, sit back, and relax while you enjoy an all new bathroom experience. **German Pool (Hong Kong) Limited** | (Hong Kong): Room 2-4, Upper G/F, Newport Centre, 116 Ma Tau Kok Road, Tokwawan, Kowloon | (852) 2773 2888 | (China): 3/F, Takshun Plaza, Nanguo East Road, Shunde, Foshan, Guangdong | (86) 757 2980 8305 | www.germanpool.com
