Home Improvements Made Easier

Nia Tam

No one shall deny that innovative home appliances can greatly improve the quality of our modern living by bringing convenience and easy solutions to our daily life.

However, with abundant choices of innovations for every corner of our homes, a place, that combines a full range of home appliances with comprehensive, professional services to guide you through the product specifications and considerations, becomes your must-go spot.

Marking the significant step forwards to the goal of offering one-stop professional services on home appliances is the grand opening of German Pool's Kowloon Flagship Store on June 19.

The renowned home appliance specialist has already been the industry leader in home electrical appliances for over 30 years. They design and develop their products with top notch German technology and high quality European-made components to make our lives simpler.

In the new 7,100 sq ft two-storey Kowloon Flagship store, the brand showcases its latest innovations in an impressively wide range. Mainly on the ground floor, guests can find the Custom Cabinets & Appliances Centre.

This is where collections of water heaters, lifestyle appliances, seasonal appliances, health care products, built-in appliances, kitchen cabinetry and many more are displayed to keep its guests up-to-date with the latest trends of home appliance innovations.

Guests can enjoy the complete and professional services in store for a hassle-free home improvement on electrical products. German Pool's home appliance experts arrange professional measuring, planning, installations and offer after-sale services.

The flagship store offers not only a comfortable space for the one-stop shopping experience, but also an experience centre for its guests to put their hands on the products. On the second floor is a brand new Culinary Experience Centre of 1,500 sq ft area.

You can join the cooking workshops which focus on homemade, preservatives-free and healthy cooking in the centre to not only understand more about the latest innovations in lifestyle appliances, but also share the joy of cooking with other VIPs.

German Pool Kowloon Flagship Store is located at Room 2-4, Upper G/F, Newport Centre, 116 Ma Tau Kok Road, To Kwa Wan. For more information, visit www.germanpool.com or call 2773 2888.
