8-in-1 Healthy Home Cooking

The Chinese have mastered the art of cooking soups and stews over hundreds of years. At low temperature, ingredients slowly release their essences into the simmering liquid to create a flavourful healthy soup without sacrificing any nutritional value. For those who live an urban lifestyle, home-cooked healthy soup is definitely a luxury. Our solution: the German Pool 8-in-1 Deep Fry Cooker. The slow stew function automatically turns the high 1,500W power output down to 300W, maintaining a constant temperature to create the best soup possible without overcooking the precious ingredients. This is not your average deep fryer; the 8-in-1 Deep Fry Cooker is capable of slow cooking, pan-frying, baking, steaming, and even stir-frying functions, serving as a one-pot kitchen essential for your healthy home cooking needs.
